

Post Demo Questionnaire

You have just experienced the **DEMO** of the O2COMFORT Flowmeter.

We would like to have your first impression on this experience, asking **5 questions**:

The first 3 questions use a scale from 1 to 5. Please put an "O" around your number of choice, in which 1 is "Not at all" and 5 is "Very Much". The last 2 questions are open-ended questions.

1. Did you experience a difference between the traditional mode of oxygen administering (continuous flow) and the on-demand mode of oxygen administering (comfort flow)?

1-----2-----3-----4-----5
Not at all Very Much

2. Did you experience an increased comfort when receiving oxygen in comfort mode?

1-----2-----3-----4-----5
Not at all Very Much

3. The O2COMFORT flowmeter offers both continuous and comfort flow to meet the needs of all patients. After the demo, were you aware that this product offers both options: continuous and comfort mode?

1-----2-----3-----4-----5
Not at all Very Much

4. What is the single, most-important point that you remember most from the demo given?

5. What ideas, suggestions or remarks do you want to share with us about the O2COMFORT flowmeter?

Thank you very much!!
